Gary L. Pisoni, do hereby certify that on the 17th day of August 19. 93., I found evidence of the South Quarter corner of Section 12 14 East Fourth Principal Meridian, as described hereon; and that from this evidence I established a new monument and accessories as described hereon to perpetuate the original location of this corner.

= Corner monument restored.

History of original corner establishment:

Original Government Survey in 1859 by James McBride, deputy surveyor. West corrected between Sections 12 and 13 at 40.05 chains, set Quarter Section post from which the following bear: Cedar, 8", N 22°W, 7 lks; Tamarack, 10", S 05°E, 10 lks.

Description of corner evidence found:

No original corner evidence found.

I re-established the corner position at proportionate distances and on line between the Southeast and the Southwest Section Corners of Section 12.

Description of monument and accessories I established to perpetuate the original location of this corner.

At the corner postion, set a  $2\frac{1}{2}$ " x 36" aluminum pipe monument with an aluminum cap stamped; T36N, R14E, 1/4, S.12, S.13 1993, S-1634; from which the following new blazed and scribed bearing trees bear: (all measurement taken to a nail in side of tree

By Deputy

| <b>3</b> } | Describe any material discrepancy between the location of the corner as restored or   |
|------------|---|
|            | reestablished and the location of that corner as proviously restored or reestablished |
| •          | by distance and direction. Show the discrepancy on the plan view drawing under (d),   |
|            | above. Show the distances between the corner as previously restored or reestablished  |
|            | and (1) the corner as restored or reestablished, and (2) to at least 2 of the witness |
|            | monuments shown on the drawing in (d), above.   |

None

(r) was the corner restored through acceptance of (1) an oblicerated evidence location, or, (2) a found perpetuated location?

(9kh) Was the corner reestablished through lost corner proportionate mothods? If so, show the method, including the directions and distances to other public land survey corners used as evidence or used for proportioning in determining the corner location?

Re-established through lost corner proportionate methods.

GARY LEE

PISONI

S-1634

IRON RIVER,

Mi

(type or print name) certify that the corner location shown on this record was determined by me or under my direction and control and that this U.S. Public Land Survey Monument Record is correct and complete to the best of my knowledge and belief.
