State of Wisconsin

certify that on the 25th day

of April , 19.94 , I found

evidence of the North Quarter

corner of <u>Section 16</u>

13 East Fourth Principal Meridian,

as described hereon; and that from this evidence

I established a new monument and accessories

as described hereon to perpetuate the original

SECTION 16

= Corner monument restored.

County of Forest

location of this corner.

Resident witnesses:

} \$\$.

History of original corner establishment:

Original Government Survey in 1865 by William E. Daugherty. West corrected between Sections 9 and 16, at 40.23 Chains set Quarter Section post.from which:

Spruce 101ks Cedar

Description of corner evidence found:

No Corner evidence found

Description of monument and accessories I established to perpetuate the original location of this corner.

At proportionate measurements between the Northwest and Northeast Section Corners and on line. I set a $2\frac{1}{2}$ diameter aluminum pipe monument 36 inches long with an aluminum cap stamped: T39N, R13E, 1/4, S9, S16, 1994, S-1107. From which:

N33°E 23.94 feet 10" Maple -N29°W 10" 11.52 feet Cherry .75 feet Steel sign post Northeast

bescribe any material discrepancy between the location of the corner as restored or reestablished and the location of that corner as previously restored or reestablished by distance and direction. Show the discrepancy on the plan view drawing under (d), above. Show the distances between the corner as previously restored or reestablished and (1) the corner as restored or reestablished, and (2) to at least 2 of the witness monuments shown on the drawing in (d), above.

see drawing below.

(f) was the corner restored through acceptance of (1) an obliterated evidence location, or, (2) a found perpetuated location?

Re-established through lost corner proportionate methods.

(9kh) Was the corner reestablished through lost corner proportionate mothods? If so, show the method, including the directions and distances to other public land survey corners used as evidence or used for proportioning in determining the corner location?
