History of original corner establishment:

Original Government Survey by William E. Daugherty in 1865.

In 1937 a metal tag was placed on a 18" cedar. Corner bears Northeast $2\frac{1}{2}$ feet. 874 slip states that the corner was reestablished at that time.

Description of corner evidence found:

Found no original corner evidence. at the proportionate position found down large cedar with metal tag, cannot tell exactly where it once stood.

Description of monument and accessories I established to perpetuate the original location of this corner. At the proportionate position set a $2\frac{1}{2}$ "X36" aluminum pipe monument $2\frac{1}{2}$ feet in the ground with an aluminum cap stamped: T39N, R13E, 1/4, S26, S27, 1994, S-1107. From which the following bear:

Maple	7"	S63°E	33.18 feet
Maple	9"	S16°W	8.53 feet
Steel sign pos	t	South	1.00 feet

= Corner monument restored.

State of Wisconsin

I William B. Cochrane , do hereby

certify that on the 12th day

evidence of the East Quarter

corner of Section 27

Township...39....., North, Range

......13 East......, Fourth Principal Meridian,

as described hereon; and that from this evidence

I established a new monument and accessories

as described hereon to perpetuate the original

SECTION 27

County of Forest

location of this corner.

Resident witnesses:

(a) Describe any material discrepancy between the location of the corner as restored or reestablished and the location of that corner as previously restored or reestablished by distance and direction. Show the discrepancy on the plan view drawing under (d), above. Show the distances between the corner as previously restored or reestablished and (1) the corner as restored or reestablished, and (2) to at least 2 of the witness monuments shown on the drawing in (d), above. THE REPORT OF See drawing below. (r) was the corner restored through acceptance or (1) an obliterated evidence location, or, (2) a found perpetuated location? Re-established through lost corner proportionate methods. (gkh) was the corner reestablished through lost corner proportionate methods? If so, show the method, including the directions and distances to other public land survey corners used as evidence or used for proportioning in determining the corner location?
