O = Corner monument restored.

History of original corner establishment:

Original Government Survey in 1857 by Alfred Millard.

Corner restoration on April 25, 1967, by Jean Resvick, a Registered Land Surveyor with the U.S. Forest Service.

See Certified Land Corner Restoration Certificate #94234, filed in the Registrar of Deeds Office, in the Forest County Courthouse.

Description of corner evidence found:

16''	N36°E	32.39 feet
8"	S12°E	11.55 feet
8"	S71°W	23.04 feet
	N20°W	31.00 feet
ost	South	2.00 feet
	8" 8"	8" S12°E 8" S71°W N20°W

Description of monument and accessories I established to perpetuate the original location of this corner.

Blazed and scribed a new bearing tree;

Maple

(e) Describe any material discrepancy between the location of the corner as restored or reestablished and the location of that corner as previously restored or reestablished by distance and direction. Show the discrepancy on the plan view drawing under (d), above. Show the distances between the corner as previously restored or reestablished and (1) the corner as restored or reestablished, and (2) to at least 2 of the witness monuments shown on the drawing in (d), above.

See drawing below.

(f) was the corner restored through acceptance of (1) an obliterated evidence location, or, (2) a found perpetuated location?

Restored through acceptance of a found perpetuated location.

(9&h) was the corner reestablished through lost corner proportionate methods? If so, show the method, including the directions and distances to other public land survey corners used as evidence or used for proportioning in determining the corner location?

William B. Cochrane (type or print name) certify that the corner location shown on this record was determined by me or under my direction and control and that this U.S. Public Land Survey Monument Record is correct and complete to the best of my knowledge and belief.
