O = Corner monument restored.

History of original corner establishment:

Original Government Survey in 1865 by William E. Daugherty. Dependent Resurvey in 1944 by Hugh Crawford. North between Sections 2 and 3, 39.32 chains, corner position falls at the Northeast corner of a property line fence. No monument set or bearing trees made.

Description of corner evidence found:

Metal fence post lying alongside a 4"x4" Wood Post.

I accept the metal fence post alongside the Wood Post as the best available evidence for restoring the corner position.

No original corner evidence was recovered.

Description of monument and accessories I established to perpetuate the original location of this corner.

At the restored corner position, set a $2\frac{1}{2}$ " diameter aluminum pipe monument, 3 feet long, $2\frac{1}{2}$ feet in the ground, with an aluminum cap stamped; T40N R14E, 1/4, S2, S3, 1984, S-1107. From which the following new blazed and scribed bearing trees bear;

| Spruce | 9" | N70°E | 41.32 feet |
|------------|------|-------|------------|
| Aspen | 11" | S38°E | 21.88 feet |
| Steel Sign | Post | SW | 0.50 feet |

(e) Describe any material discrepancy between the location of the corner as restored or reestablished and the location of that corner as previously restored or reestablished by distance and direction. Show the discrepancy on the plan view drawing under (d), above. Show the distances between the corner as previously restored or reestablished and (1) the corner as restored or reestablished, and (2) to at least 2 of the witness monuments shown on the drawing in (d), above.

See Drawing below.

(r) was the corner restored through acceptance of (1) an obliterated evidence location, or, (2) a found perpetuated location?

Restored from accepted evidence.

(g&h) Was the corner reestablished through lost corner proportionate methods? If so, show the method, including the directions and distances to other public land survey corners used as evidence or used for proportioning in determining the corner location?

William B. Cochrane

(type or print name) certify that the corner location shown on this record was determined by me or under my direction and control and that this U.S. Public Land Survey Monument Record is correct and complete to the best of my knowledge and belief.
