## 9058

## U.S. PUBLIC LAND SURVEY MONUMENT RECORD

Quarter Corner to Section  $\underline{17}$   $\underline{18}$   $\underline{7}$   $\underline{35}$ N, R  $\underline{16}$  E (Section/Quarter) RI6E 35 N

O = Corner monument restored.

Set a 2"x 36" aluminum post stamped for corner flush with ground. Ties are to 1"x 24" iron pipe and aluminum nails driven into the tree centers which trees were scribed and painted brown with minimal signing on the trees. Bearings are magnetic.

History of original corner establishment, record evidence, monument evidence, occupational evidence, testimonial evidence or any other material evidence, and what you found and how the monument was

In 1858 James McBride set this corner at 40 chains running north between sections 17 and 18 hitting the lake at 21.61 chains, leaving lake at 35.82 chains and marking the following bearing trees at the quarter corner:

Cedar N81W Hemlock N32E

The lake calls to the south all fit within a half chain and a search area was set up at the single proportionate position. This area fell in the recreation beach and corner evidence had been destroyed for beach improvements. I set this corner by lost methods of single proportionate measure which fit the lake calls extremely well.

In the plan view drawing below, provide reference ties to at least 4 witness monuments, or, if the location is within a municipality, to at least 2 witness monuments. (Witness monuments shall be made of concrete, natural stone, iron or other equally durable material, except wood other than bearing trees.) Also, show any material discrepancies between the corner restored or re-established and the location of any other previous corner location or occupation.
