U. S. PUBLIC LAND SURVEY MONUMENT RECORD

NSTRUCTIONS

This record shall show the location of the corner and shall include all of the following nine elements (a through i).

(a) Identify the corner by reference to the U.S. public land survey system.

O = Corner monument restored.

Section corner to Sections 2-3-10-11, T37N, R13E, Forest County, Wisconsin

T_37N	RIJE
Sec. 3	Seci 2
Sec. 10	Sec. II

(b) Describe any record evidence, monument evidence, occupational evidence, testimonial evidence or any other material evidence you considered, and whether the monument was found or placed.

In 1865 the government set a wood post with: Sugar 8" S16W 5 links Lind 14" N79E 10 links

In 1971 D Stover found a wood post with a Basswood and metal location tag on an old Basswood stump.

Since 1971 the area had been heavily logged and all this evidence lost. I set this corner by lost methods of double proportionate measure.

(c) In the plan view drawing below, provide reference ties to at least 4 witness monuments, or, if the location is within a municipality, to at least 2 witness monuments. (Witness monuments shall be made of concrete, natural stone, iron or other equally durable material.)

Describe witness monuments.

and the first of the second of the control of the second of the first of the second of

(d) Show a plan view drawing depicting the relevant monuments and reference ties. Which is sufficient in detail to enable accurate relocation of the corner monument if the corner monument is disturbed. Indicate north.

Set a 2"x 30" Aluminum monument with cap stamped for corner and accessories set to USFS standard.

INDEX NO.

(e) Describe any material discrepancy between the location of the corner as restored or reestablished and the location of that corner as previously restored or reestablished by distance and direction. Show the discrepancy on the plan view drawing under (d), above. Show the distances between the corner as previously restored or reestablished and (1) the corner as restored or reestablished, and (2) to at least 2 of the witness monuments shown on the drawing in (d), above.

No descrepancy

(f) Was the corner restored through acceptance of (1) an obliterated evidence location, or, (2) a found perpetuated location?

Obliterated evidence location

(g&h) Was the corner reestablished through lost corner proportionate methods? If so, show the method, including the directions and distances to other public land survey corners used as evidence or used for proportioning in determining the corner location?

Lost corner methods of double proportionate measure from the corners as shown.
