SECTIO	N 3	

= Corner monument restored.

History of original corner establishment: Original Survey in 1865 by J.L. Nowlin. North between Sections 9 and 10, at 80.00

chains, set section cor. post which bears: Hemlock 7"N45 E 121ks; Hemlock 14"N55 W 30 1ks. In 1934 John Ruby found wood post alongside a la" dia. iron pipe. Put metal tag on a Maple 8", S60 E, 2 chs.

In 1970, Jean Resvick, RLS, with the Forest Service found the above described evidence. He replaced pope with a 2" dia. galvanized iron pipe. Made the following bearing trees; B. Spruce 4", S72 W, 19.48 ft., Balsam, 6", N31 W, 16.80 ft., Iron Post, SE, 1.00 ft.

In 1988, Alan Harrison, RLS, with the Forest Service, made the following new bearing trees; Description of corner evidence found:

Aspen	3"	N46 E	10.64 feet
Balsam	7."	S78°E	53.92 feet
Red Maple	6"	s82°w	19.56 feet
Balsam	5"	พ77 <sup>0</sup> พ	21.60 feet

Found monument and bearing trees as described above;

Aspen(Dead)		N46 E	10.64 feet
Balsam	8"	\$84 <sup>©</sup> €	54.02 feet
Red Maple	7"	S82°W	19.56 feet
Balsam	6"	N77°W	21.60 feet

Description of monument and accessories I established to perpetuate the original location of this corner. Blazed and scribed a new bearing tree: (Measurement is taken to a nail in side of tree)

Aspen	6"	N35°E	32.48 feet
Steel Sign Post		N01°E	1.30 feet

Describe any material discrepancy between the location of the corner as restored or reestablished and the location of that corner as previously restored or reestablished by distance and direction. Show the discrepancy on the plan view drawing under (d), above. Show the distances between the corner as previously restored or reestablished and (1) the corner as restored or reestablished, and (2) to at least 2 of the witness monuments shown on the drawing in (d), above.

None

(r) was the corner restored through acceptance of (1) an obliterated evidence location, or, (2) a found perpetuated location?

Restored through acceptance of a found perpetuated location.

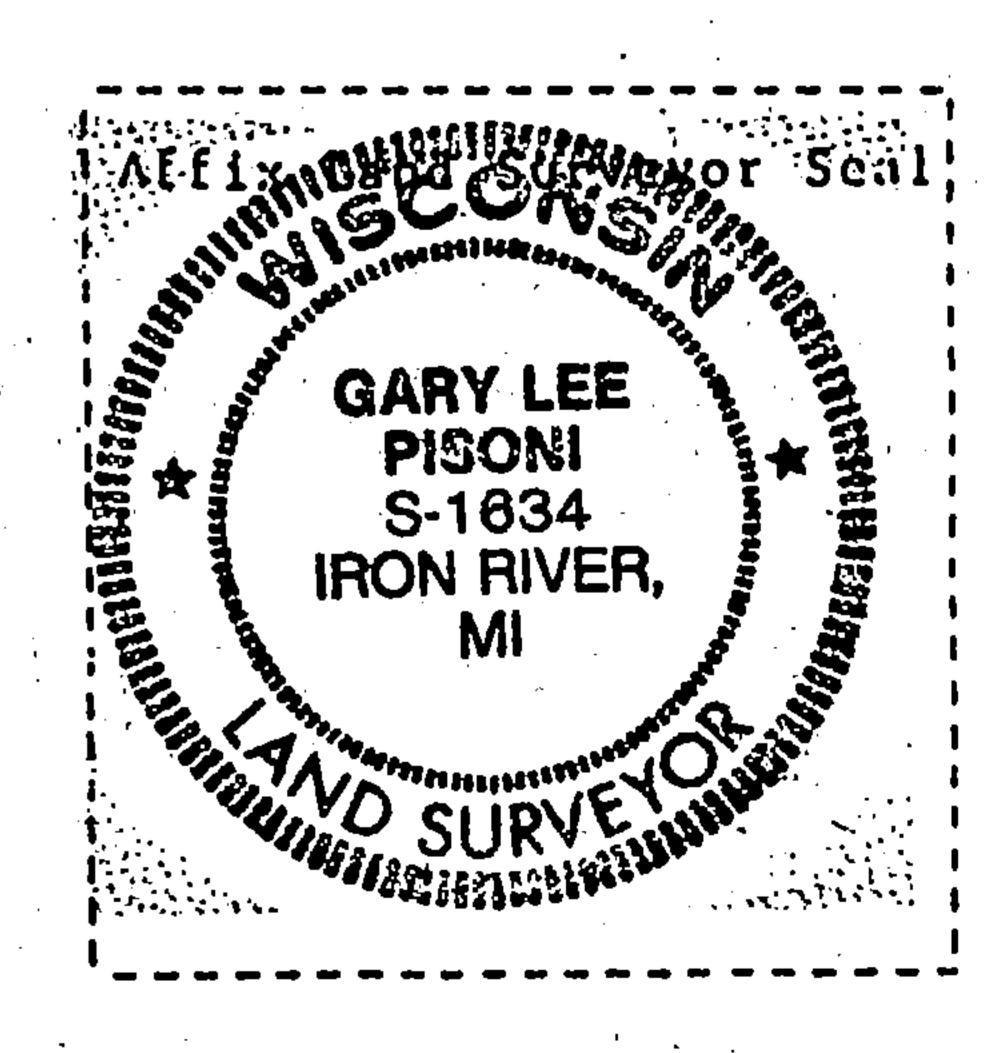

(g&h) Was the corner reestablished through lost corner proportionate methods? If so, show the method, including the directions and distances to other public land survey corners used as evidence or used for proportioning in determining the corner location?

(i) I. Gary L. Pisoni

(type or print name; certify that the corner location shown on this record was determined by me or under my direction and control and that this U.S. Public Land Survey Monument Record is correct and complete to the best of my knowledge and belief.

## DOCUMENT NUMBER 137113

## U. S. PUBLIC LAND SURVEY MONUMENT RECORD

INSTRUCTIONS

This record shall show the location of the corner and shall include all of the following nine elements (a through i).

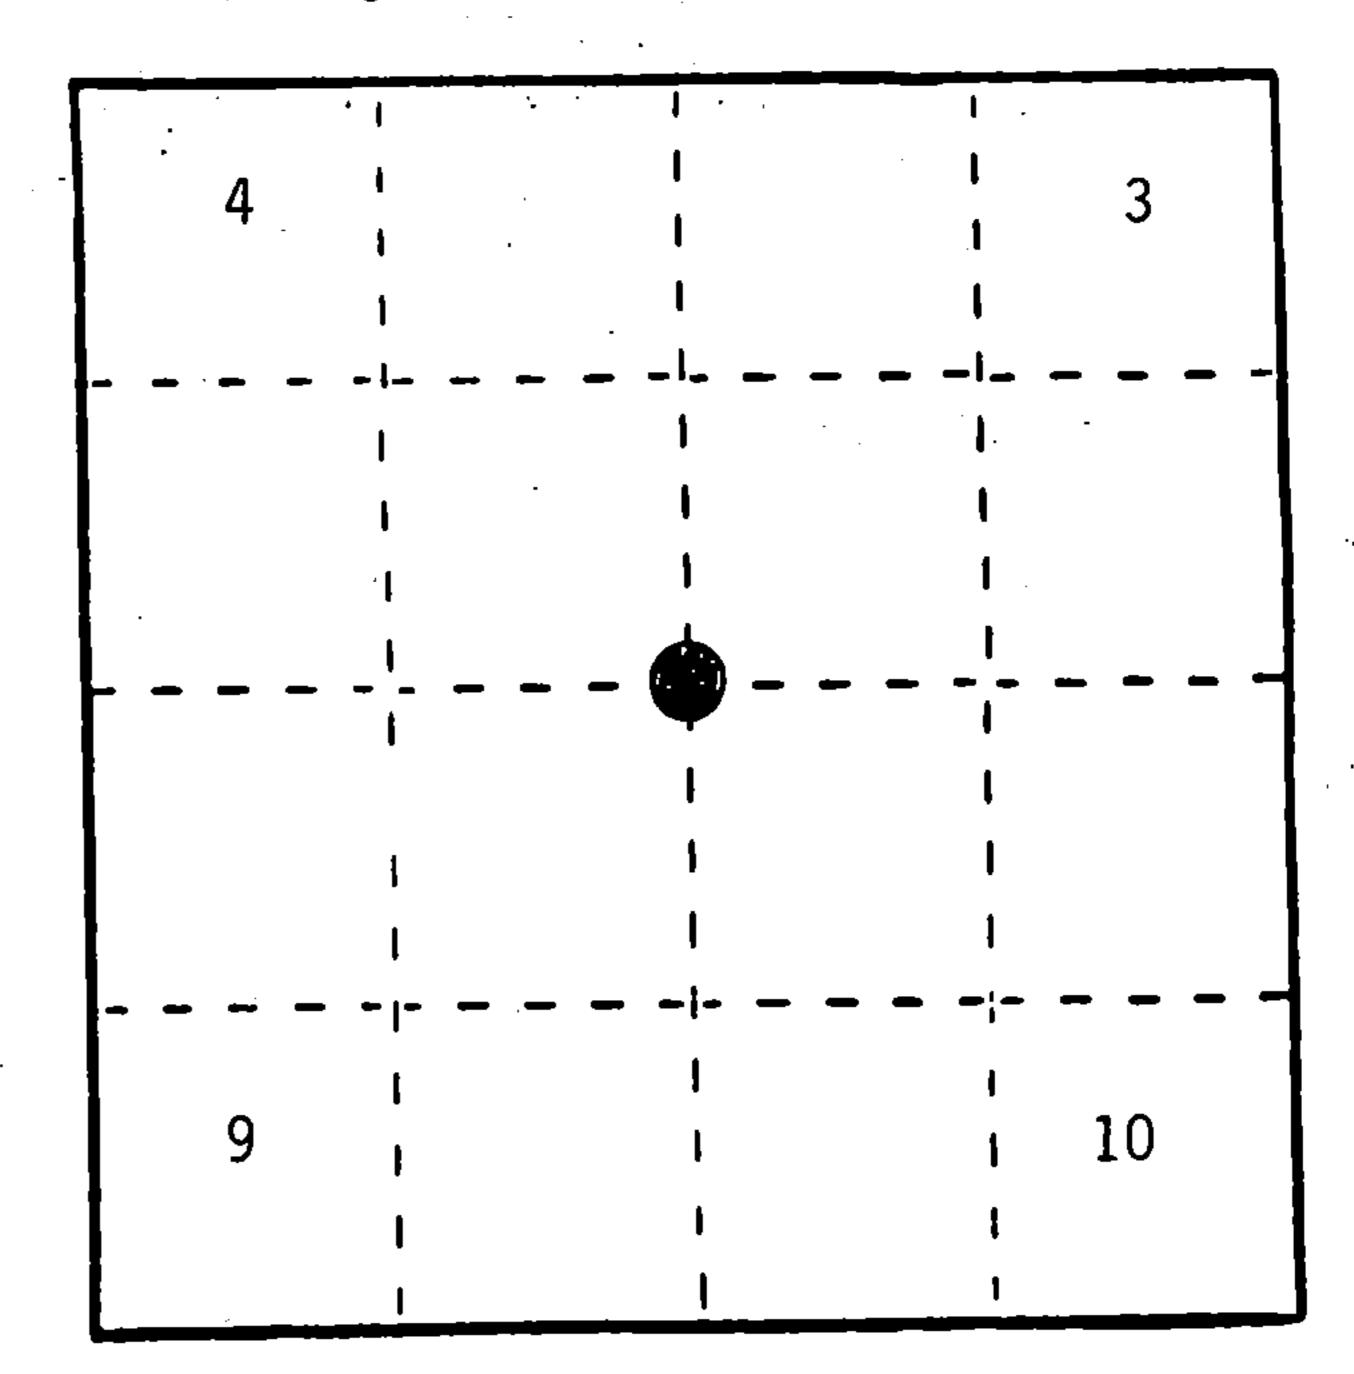

(a) Identify the corner by reference to the U.S. public land survey system.

O - Corner monument restored.

Section Corner to Sections 3-4-9-10, T.37N., T.15E., Forest County.

REGISTER'S OFFICE
Forest County, Wis.

Received for record this diay
of Arch. A.D., 1907 at
9:00 o'clock .A.M. and recorded
in Vol. Corder Restorations
page E-13
Register of Deeds

(b) Describe any record evidence, monument evidence, occupational evidence, testimonial evidence or any other material evidence you considered, and whether the monument was found or placed. In 1865, J.L. Nowlin set wood post with the following BTs: Hemlock, 7", N.45E., 7.92 feet; Hemlock, 14", N.55W., 19.80 feet.

In 1934, John Lindiy Ruby, "874" found wood post with  $1\frac{1}{2}$ " iron pipe alongside. Put metal tag on a Maple, 8", S.60E., 2 chains. Old road runs East and West, 80.00 feet South of corner position.

In 1970, Jean Resvick; found Forest Service location tag on South edge of road. 1½" iron pipe and remains of old post, replaced with a 2" galvanized pipe, 5 feet long. Added BTs: Black Spruce, 4", \$5.72W., 19.48 feet; Balsam, 6", N.31W., 16.80 feet, iron post, Southeast, 1.00 feet.

In 1988, Al Harrison found monument in good condition, added new BTs.

(c) In the plan view drawing below, provide reference ties to at least 4 withess monuments, or, if the location is within a municipality, to at least 2 witness monuments. (Witness monuments shall be made of concrete, natural stone, iron or other equally durable material.)

Describe witness monuments.

(d) Show a plan view drawing depicting the relevant monuments and reference ties which is sufficient in detail to enable accurate relocation of the corner monument if the corner monument is disturbed. Indicate north.

2" galvanized pipe filled with concrete,
 5 feet long with brass cap.

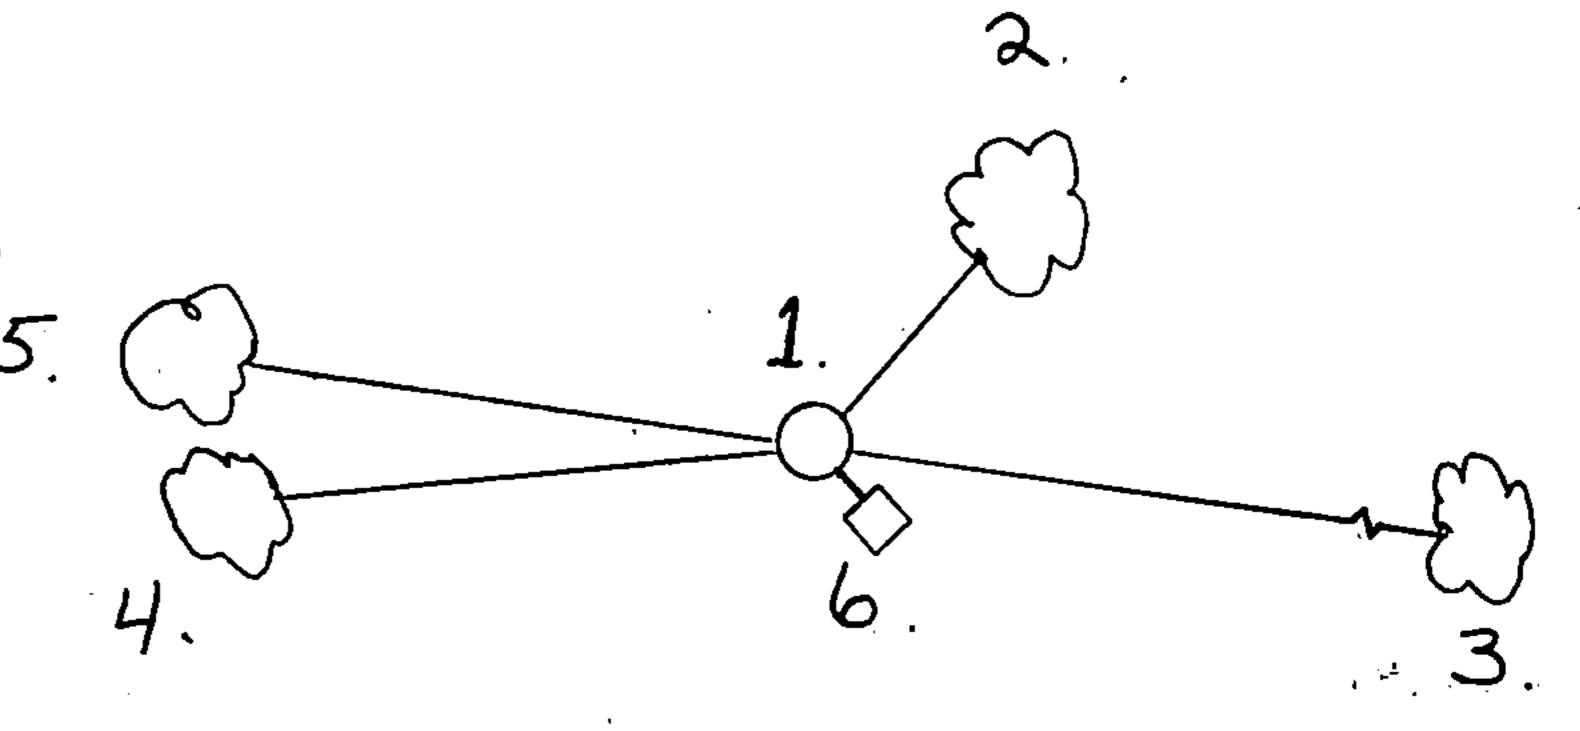

2. Aspen, 3", N.46E., 10.64 feet.

3. Balsam, 7", S.78E., 53.92 feet.

4. Red Maple, 6", S.82W., 19.56 feet.

5. Balsam, 5", N.77W., 21.60 feet.

6. Steel Sign Post, Southeast, 1.00 feet.

1

(e) Describe any material discrepancy between the location of the corner as restored or reestablished and the location of that corner as previously restored or reestablished by distance and direction. Show the discrepancy on the plan view drawing under (d), above. Show the distances between the corner as previously restored or reestablished and (1) the corner as restored or reestablished, and (2) to at least 2 of the witness monuments shown on the drawing in (d), above.

None

- (r) was the corner restored through acceptance of (1) an obliterated evidence location, or, (2) a found perpetuated location?
  - (2) A found perpetuated location.
- (gan) was the corner reestablished through lost corner proportionate methods? If so, show the method, including the directions and distances to other public land survey corners used as evidence or used for proportioning in determining the corner location?

No.

Alan D. Harrison

(type or print name) certify that the corner location shown on this record was determined by me or under my direction and control and that this U.S. Public Land Survey Monument Record is
