Corner monument restored.

		-		
TT"	_ £	1		
THISTOTY	10	originai	corner	establishment:

Original Government Survey in 1858 by Alfred Millard. At 40,00 chains, set Quarter Section Post, from which the following bear; Spruce, 6", N45°W, 5 1ks., Spruce, 6", S28°E, 31 1ks.

In 1987, Glen Barker, RLS, with Consolidated Papers, found an old post point and a location tag on a Cedar tree. This position has been maintained by Consolidated Papers according to CPI maps. In place of post, set a  $2\frac{1}{4}$  dia. Forest County Aluminum monument with an alloy cap stamped to identify the corner. Blazed and scribed the following:

<u> </u>	_					
~	Black	Ash	5"		31.14	feet
-	Black	Ash	8"		12.12	feet
Description of corner evidence found:	Cedar		12"	s36°W	48.43	feet
	Cedar	; a.	12"	South	28.00	feet

Found monument and bearing trees as described above.

Black Ash	5"	$N10^{\circ}E$	31.16 feet
Black Ash	8"	и66°W	12.12 feet
Cedar	12"	s36°W	48.35 feet
Cedar(Dead)		South	28.00 feet

Description of monument and accessories I established to perpetuate the original location of this corner.

Blazed and scribed a new bearing tree: (Measurement taken to a nail in side of tree)

Cedar	æ	]	L1"	•	S57°E	61.14	feet

Describe any material discrepancy between the location of the corner as restored or reestablished and the location of that corner as proviously restored or reestablished by distance and direction. Show the discrepancy on the plan view drawing under (d), above. Show the distances between the corner as previously restored or reestablished and (1) the corner as restored or reestablished, and (2) to at least 2 of the witness monuments shown on the drawing in (d), above.

None

(r) Was the corner restored through acceptance or (1) an obliterated evidence location, or, (2) a found perpetuated location?

Restored through acceptance of a found perpetuated location.

(9kh) Was the corner reestablished through lost corner proportionate methods? If so, show the method, including the directions and distances to other public land survey corners used as evidence or used for proportioning in determining the corner location?

(i) i. Gary L. Pisoni
(type or print name) certify that the corner location shown
on this record was determined by me or under my direction and
control and that this U.S. Public Land Survey Monument Record is
correct and complete to the best of my knowledge and belief.

## CERTIFIED LAND CORNER RESTORATION

## U.S. PUBLIC LAND SURVEY

History of original corner establishment:

Original corner established by A. Curtis, Deputy Surveyor, in 1857 from which Spruce 6" bears N45°W 5 1ks and spruce 6" bears S28°E 31 1ks.

Description of corner evidence found:

Recovered two old post points under swamp turf and muck, also an old location tag on a 12" cedar stating the corner to be 28.0' north. Old CPI type maps identify this position the same as found. Ray Leigh, CPI forester for many years, maintained this position.

Description of monument and accessories I established to perpetuate the original location of this corner. Set a 2½" Forest County aluminum monument with 3½" alloy cap stamped: Monument projects 12" above ground. Marked NBT's

Black Ash 5" N10°E 31.14 Black Ash 8" N66°W 12.12' Cedar 12" S36°W 48.43' Cedar 12" Sough 28.00'
