

# U.S. PUBLIC LAND SURVEY MONUMENT RECORD

Index No. V-19

State of Wisconsin }  
County of Forest } ss.

I, William B. Cochrane, do hereby certify that on the 18th day of September, 1991, I found evidence of the South Quarter corner of Section 26 Township 40, North, Range 13 East, Fourth Principal Meridian, as described hereon; and that from this evidence I established a new monument and accessories as described hereon to perpetuate the original location of this corner.

Resident witnesses:

○ = Corner monument restored.

History of original corner establishment:

Original Government Survey in 1865 by William E. Daugherty. West corrected between Sections 26 and 35, at 40.29 chains, set Quarter Section Post, from which the following bear;

Birch	5"	N88°E	279 lks.
Birch	8"	S81°E	239 lks.

On 7-13-39, Ray Leigh ran the North-South center-line of Section 26 using a 4"x4"x40" wood post for the South Quarter Corner of Section 26.

Description of corner evidence found:

An 874 form dated 7-24-58, describes a 1 1/4" well point for the corner position.

Found a 4"x4" wood post lying alongside a 1 1/4" diameter well pipe.

I accept the well point and wood post as the best available evidence for restoring the corner position.

Description of monument and accessories I established to perpetuate the original location of this corner.

In place of well point, set a 2 1/2 inch diameter aluminum pipe monument, 3 feet long, 2 1/2 feet in the ground, with an aluminum cap stamped; T40N R13E, 1/4, S26, S35, 1991, S-1107. From which the following new blazed and scribed bearing trees bear;

Northeast Corner of Cabin	S10°W	68.18 feet
Maple	8" N42°W	26.77 feet
Steel Sign Post	North	0.50 feet

Dated at Hiles, Wis., this 19th day of February, 1992

Signature William B. Cochrane Title Land Surveyor Registration No. S-1107  
(County Surveyor, Registered Land Surveyor, or other duly authorized official)

Office of Register of Deeds, County of Forest, I hereby certify that the within instrument was filed in this office for record on the 31st day of August, 1992 at 10:15 o'clock A. M.

- (e) Describe any material discrepancy between the location of the corner as restored or reestablished and the location of that corner as previously restored or reestablished by distance and direction. Show the discrepancy on the plan view drawing under (d), above. Show the distances between the corner as previously restored or reestablished and (1) the corner as restored or reestablished, and (2) to at least 2 of the witness monuments shown on the drawing in (d), above.

- (f) Was the corner restored through acceptance of (1) an obliterated evidence location, or, (2) a found perpetuated location?

Restored from accepted evidence.

- (g&h) Was the corner reestablished through lost corner proportionate methods? If so, show the method, including the directions and distances to other public land survey corners used as evidence or used for proportioning in determining the corner location?
