# SURVEY NOTES

This survey was made by Gary L. Pisoni, a Registered Land Surveyor in the State of Wisconsin, for the U.S.D.A., Forest Service, for the purpose of recovering, restoring, establishing, marking, and perpetuating the corners and boundary lines of U.S. Government Land on the perimeter and within Section 2, Township 36 North, Range 15 East, Fourth Principal Meridian, Forest County, State of Wisconsin, as shown on the plat map herewith.

The Original Government Township Lines was done by Artemas Curtis, U.S. Deputy Surveyor in September of 1857. The original Government Sub-division of this township was done by James McBride, U.S. Deputy Surveyor in July of 1859.

The bearings between corner positions are true bearings referenced to the North One-Half of the West section line of Section 10, as determined by a solar observation by Kim H. Pritzlaff of Aaron Associates from a Plat of Survey of 1985 of Section 9. All distances shown thereon are in feet and hundredths of feet. The control traverse was measured by use of an electronic distance measuring equipment.

The accuracy of this survey exceeds the State requirements of 1 in 3000.

The field notes and a copy of the Plat of Survey are on file in the Forest Supervisor's Office at Rhinelander, Wisconsin.

#### CORNERS RECOVERED AND RESTORED
