#### SECTION 12, T36N-R16E SURVEY NOTES

This survey was made by Coleman Engineering Company for the U.S. Department of Agriculture-Forest Service under Contract No. 53-56A6-1-00490 for the purpose of restoring and establishing corners on the perimeter of Section 12, for establishing subdivisional corners within Section 12, and for locating and marking the boundaries of U.S. Government lands along the perimeter and within Section 12, Township 36 North, Range 16 East, Fourth Principal Meridian, Forest County, State of Wisconsin.

The U.S. Government acquired ownership within Section 12 in 1935, 1936 and 1969.

The original township line and subdivision surveys of T36N-R16E were completed in September, 1857, and July, 1858, respectively.

The corner positions recovered, restored and established by this survey are marked by the monument described in the map legend.

The corner positions established were located to a minimum accuracy of 1 part in 5000.

The bearings between corner positions are true bearings as determined by solar (hourangle) observations.

The field notes of the survey and a copy of this plat are on file in the Forest Supervisor's office in Rhinelander, Wisconsin.

#### **CORNERS RECOVERED OR RESTORED**

1. Section Corner Common to Sections 1, 2, 11 and 12
Corner position recovered as found 1" x 12" iron bolt (buried) with 1-1/2" squared head, presumed set by prior unknown surveyor. Position was accepted as most probable location of true corner.
