SURVEY NOTES

This survey was made by Gary L. Pisoni, a Registered Land Surveyor in the State of Wisconsin, for the U.S.D.A., Forest Service, for the purpose of recovering, restoring, establishing, marking, and perpetuating the corners and boundary lines of U.S. Government Land on the perimeter and within Section 21, Township 36 North, Range 16 East, Fourth Principal Meridian, Forest County, State of Wisconsin, as shown on the plat map herewith.

The Original Government Township Lines were done by Artemas Curtis, U.S. Deputy Surveyor in September of 1857. The original Government Sub-division of this township was done by James McBride, U.S. Deputy Surveyor in July of 1858.

The bearings between corner positions are true bearings referenced to the West One-Half of the South section line of Section 11, as determined by a solar observation by Charles F. Clark of Coleman Engineering Co. from a Plat of Survey of 1991 of Section 11. All distances shown thereon are in feet and hundredths of feet. The control traverse was measured by use of an electronic distance measuring equipment.

The accuracy of this survey exceeds the State requirements of 1 in 3000.

The field notes and a copy of the Plat of Survey are on file in the Forest Supervisor's Office at Rhinelander, Wisconsin.

CORNERS RECOVERED AND RESTORED1. Southwest Section Corner

On October 24, 1984, Alan Harrison found a 4" squared and scribed post and a 2" iron pipe; Spruce stump bearing N 60°W, 9.24 feet; Cedar stump bearing S 40°E, 12.54 feet; Stump depression bearing N 68°E, 18.48 feet and a Stump mound bearing S 48°W, 6.6 feet. Harrison replaced corner evidence with a 2" X 36" aluminum monument with a stamped cap.
