#### T 39 N R 12 E, SECTION 18

#### SURVEY NOTES

This survey is made by GENERAL ENGINEERING COMPANY, INC. pursuant to United States Department of Agriculture, Forest Service Contract "No. 53-56A6-6-00020, Cadastral Survey" for the purpose of recovering, restoring, establishing, marking and perpetuating the corners and boundary lines of the U.S. Government land on the perimeter and within Section 18, T39N, R12E, Fourth Principal Meridian, Forest County, Wisconsin as shown on the plat herewith.

The original government survey of the township was made in 1859 by William E. Daugherty.

The U.S. Government acquired title to the lands in Section 18, in 1930, 1934, 1941 and 1983.

This township was resurveyed by the General Land Office in 1941.

Bearings between corner positions are true bearings by reference to a solar observation. All distances shown thereon are in feet and hundredths of feet. The control traverse was measured by use of electronic distance measuring equipment to an accuracy of one part in 20,000. Corners recovered, restored, and established by this survey are marked by the monument described in the map legend. Each monumented corner position is referenced to blazed and scribed bearing trees and described reference objects.
