SURVEY NOTES

This plat of survey for Section 6, Township 39 North, Range 14 East is the product of a Photogrammetric Project linked with Global Satellite Positioning procedures to establish the co-ordinate values used as control to recover and restore lost Section and Quarter Section Corners and to establish positions for Sixteenth and Property Corners within the Sections in this project area.

The 10 G.P.S. Stations were assigned State Plane Co-ordinate Values. The values were then transferred to the target locations for ground control through photogrammetric bridging.

All bearings are geodetic bearings based on the Wisconsin North Zone Lambert Projection and have been transferred to the boundary lines within this project using a Wild North Seeking Gyro. All distances are geodetic grid distances.

This Survey was made by the U.S. Department of Agriculture, Forest Service, for the purpose of recovering, restoring, establishing, marking and perpetuating the corners and boundary lines of U.S. Government Land on the sections within this project area.

The Original Government Survey of this township was made in 1865 by William E. Daugherty.

The field notes of this survey and a copy of this and the remaining sections in this project area are on file in the Forest Supervisor's Office at Rhinelander, Wisconsin, and the District Ranger's Office at Florence, Wisconsin.

CORNERS RECOVERED AND RESTORED

1. Southeast Section Corner.

Corner position recovered as restored by Bill Cochrane in 1976 from recovered 6"x6" scribed wood post and bearing trees by unknown surveyor as late as 1934. The 1976 corner references recovered were cut down for the air photo project. New corner references:

Ash	5 " .	N12°E	41.71 feet
Ash	6"	SO7°E	45.04 feet
Ash	5"	N86°W	41.06 feet
Ash	5"	N75°E	42.09 feet
Steel sign r	ost	Northwest	2.00 feet

2. East Quarter Corner.

Corner position recovered as restored by Jean Resvick in 1974 from recovered scribed wood post and original bearing tree evidence.

The 1974 corner references recovered were cut down for the air photo project. New corner references:

Cedar	12"	NO4°W	69.24 feet
Cedar	12"	S41°W	55.03 feet
Steel sign	n post	South	0.50 feet

3. Northeast Section Corner.

Corner position is a recovered 1945 Dependent Resurvey monument as restored by Jean Resvick in 1974.

The 1974 corner references recovered were cut down for the air photo project. New corner references:
