SURVEY NOTES

This survey was made by James L. Will, a Registered Land Surveyor in the State of Wisconsin, for the U.S. Department of Agriculture, Forest Service, to establish and mark controlling subdivision corners of U.S. Government Land in Section 21, Township 41 North, Range 13 East, Fourth Principal Meridian, Forest County, Wisconsin.

The original Government survey of this township was made in 1865.

A dependent re-survey was made by the U.S. Department of the Interior General Land Office in 1942. The corners of the dependent re-survey of the perimeter of Section 21 were recovered as control for the subdivision survey of Section 20.

The U.S. Government acquired title to the lands in Section 21 in 1935 and 1938.

The bearings between corner positions are true bearings as determined by reference to solar observations. The accuracy of this survey exceeds the State requirements of 1 in 3000.

The field notes and a copy of the Plat of Survey are on file in the Forest Supervisor's office in Rhinelander, Wisconsin.
