Describe record evidence, recovered physical evidence, occupational evidence, testimonial evidence, and all other evidence considered in the recovery/restoration of the corner.

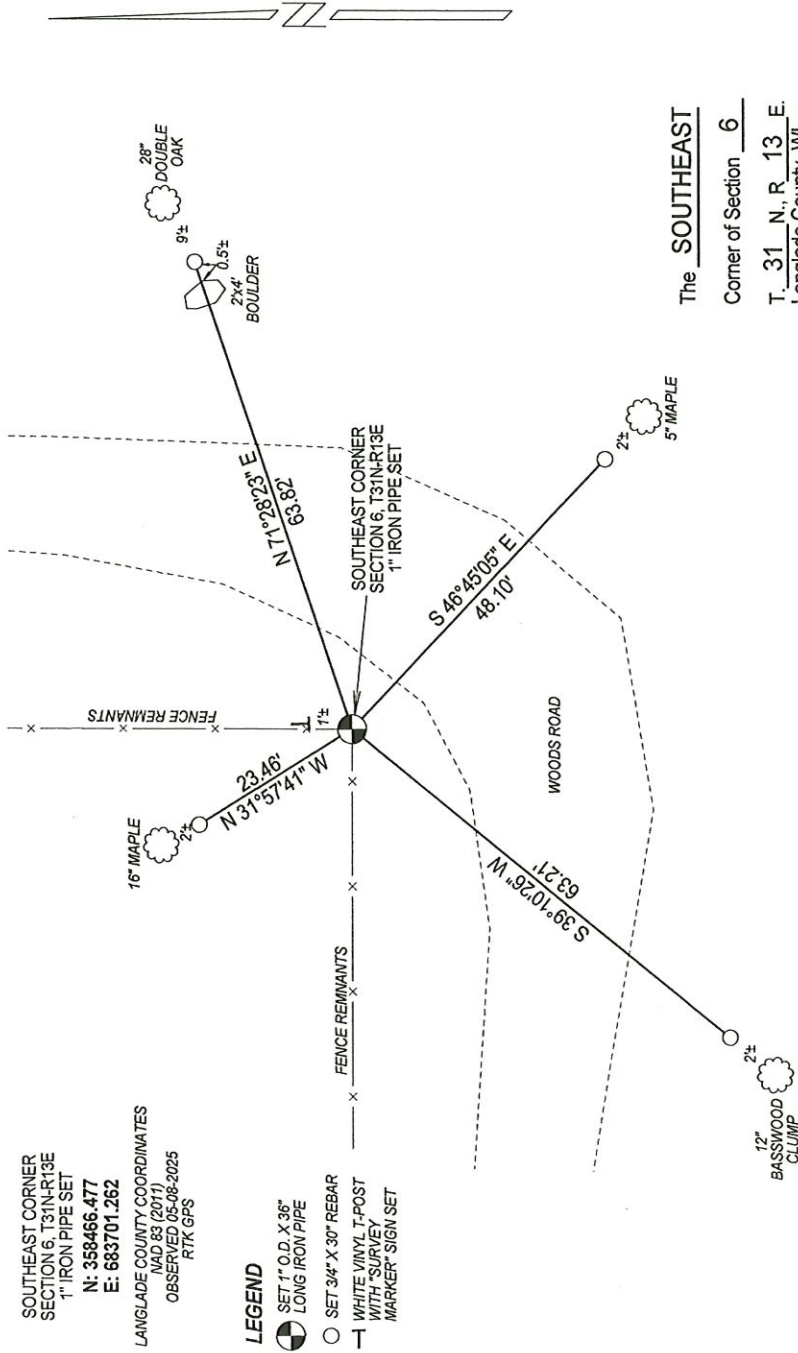

1857 - Original corner established by James McBride - bearing trees: Elm, 18", N34°W, 6 links; Fir, 12", N25°E, 78 links; Sugar, 16", S50°E, 39 links; Elm, 8", S31°W, 30 links.

2025 - Working in Sections 9 and 10, I found no evidence of the BT's referenced by McBride. I found old fences running north and west from an old post hole. I accept this post hole with fences as the best available evidence of the corner location.

Physical description of the monument set:

I set a 1" o.d. x 36" iron pipe at the corner location and tied out as shown below.

Describe the accessories used to perpetuate the location of the corner. Include a plan view drawing and indicate accessories found/set. Describe measuring point on bearing trees. Show any topographic features that would aid in future recovery of the corner.

NOTES
- SKETCH NOT DRAWN TO SCALE.
- TIE BEARINGS SHOWN ARE LANGLADGE COUNTY GRID BEARINGS.
- ALL TIES MEASURED ELECTRONICALLY WITH TOTAL STATION.
