

Because of closing error in original data, computed information has been rounded to the nearest foot.

Interior "40" corners have been recovered and are of record in the County Surveyors office.

It is not known if those corners correspond with the dimensions and locations shown on this map.

I, David E. Tlusty, Registered Land Surveyor and Langlade County Surveyor, do hereby certify that I have made this map from information taken from a 1939 re-survey of Section 7-34-10, by D. A. Hintz. The Hintz information does not close on itself by 44' N-S and 38' E-W. I have not adjusted the error and, for this map only, have placed the error at the SW corner of the section. This unadjusted closing error will have a definite effect on the bearings and distances that I have computed and have shown hereon for the interior dimensions of this section. This map has been prepared for the exclusive use of the Langlade County Forestry Department. No other use is authorized. No field work has been done to verify the dimensions on this map. THIS MAP IS NOT THE RESULT OF AN ACCURATE, RECENT FIELD SURVEY.

September 7, 1993

David E. Tlusty RLS-1390
Langlade County Surveyor
