The Public Land Survey System (PLSS) corners on the West line of this township were established in 1851 by James M. Marsh. The interlor PLSS corners of this township were set in 1860 by Hiram C. Fellows. In 1905, E.S. Brooks, County Surveyor, surveyed part of the perimeter and part of the interior of Section 19. In 1912, Malcolm -E 1/4 corner Established corner by single proportionate measurement. Corner not monumented, falls in manmade flowage. Hutchinson, County Surveyor, surveyed part of the perimeter and part of the interior of Section 19. In 1919, Malcolm Hutchinson made a road survey (of what is now S.T.H. "64") for the State. In 1921, W.C. Webley surveyed within Section 19 and subdivided the southwest quarter of Section 19. The original government survey notes and the notes of Brooks, Hutchinson and Webley are filed in the Langlade County 30.17 ac. Surveyors office. This survey was completed in compliance with the rules and regulations of the State of Wisconsin. A Land Corner Restoration form for each PLSS corner on the perimeter of Section 19 (except the E1/4 corner which falls in a flowage) is on file in the County Surveyors office in the Courthouse at Antigo, W.
